

* Please note there are a lot of different branching in this conversation and a lot of it has to do with yes/no answers. The structure of the conversation doesn't change yet, I covered everything that led into completely different paths, but there was too many examples to cover every single branch, just do see one sentence changed. Please, if you care to do so try answering to yes or no to different questions and see the sentence structure change.

* Please also note that she accuses you of cheating if you have entered 4 fights, it does not matter which ones you enter out of 5.
Fight opportunities:

- 1) Not asking how she is doing
- 2) Not being able to make hang out with her
- 3) Not saying you want to be together forever
- 4) Saying your favourite food is a sandwich
- 5) Forgetting her birthday month after she gives you 4 guesses to get it right.

Perfect Conversation- She is happy the whole time.

Hello! My name is Dr. Phil. I know you might be confused by why some of the things you said
made your girlfriend mad. This is what I am here for! I will tell you where you went wrong and what
you should have said differently to give a different outcome in the conversation

She said she wanted to hang out and she offered you a time. Regardless of whether or
not you said you would hang out with her today, you should have cancelled all plans. and when she
asked 'where will we meet' you could have said anywhere, but you should not have said that you were
busy.

You are not the brightest now are you?? This girl is your world! You live and breathe
To please her. So no, you probably shouldn't have said no i don't. when she asked if you
you wanted to be together forever. Furthermore, when she confirmed it with you TWICE, that you
were indeed serious you could have saved yourself some trouble by saying yes, I'm kidding. Now she's
certain you have commitment issues.

So I know she didn't seem that mad about this one, but she buried it into her tiny little brain and was saving it for later if you got into a fight. miley cyrus... really? That was a trap. Your celebrity crush is HER. HER, HER, HER, Everything will always be her.

Batman. Really dude? Again this was a trap... used for leverage in a later argument. Anyone of the twilight series movies will save you from surprise detonation

Well, kind sir. My work here is done. I've done all I can do and I hope that you have taken my advice seriously. Best of luck chatting with your girlfriend next time.

Very Angry conversation

I wouldn't come to school tomorrow if I were you, it's not going to be a good time.
Everyone will know u cheated on me & also still wet the bed.
bye loser.

Pretty Angry conversation.

But only three fights occurred so you didn't enter cheating accusations

august

Umm.. I think you better guess again

april

Try again... :S

may

ok seriously don't be funny.. guess again

june

BUDDY. its in July. July 17th.

We're obviously having some issues in our relationship if you can't even remember my birthday

We need to talk about our relationship

So why don't u name some qualities that you think are important in a relationship.

trust

like when you watch TV, I trust that if any girls come on
the screen you will immediately turn it off. I trust you not to visually
cheat on me. name another one!

making time for eachother

:) yep! always time for me over time for your buddies! Any more qualities you can think of?

no i have no idea

Ok so you missed a few...

humour in a relationship

We have a great humourous relationship. 'A successful husband
is one who makes more money than his wife can spend. A successful woman
who can find said man.' lol lol lol.. see im so funny.

compatibility is pretty important

Like giving up watching hockey and sports forever makes us more compatible
because I don't like them

I don't know if you know anything about communication, but its pretty key

Like giving up watching hockey and sports forever makes us more compatible
because I don't like them

respect?

Liek when you finally do get permission from me to hang out with your friends
you will talk about how amazing of a girlfriend I am

--->>I never thought of that one! Good one! (please see known bugs)
--->>I never thought of that one! Good one!
ok.. that was a good exercise. But I'm gunna go. I hope u take the time to really think about what we just discussed. These are things that are really important to me. I'll phone u later to talk about your thoughts. ok? Have a good day thinking about me. Bye!

Well, you forgot her birthday month. AFTER FOUR GUESSES. Its July, just so you know. I would probably take a pen and a paper and write July down 100 times so you will never forget EVER. You could have totally avoided going into the whole 'relationship qualities' discussion and she would have come and picked you up in her private jet and you would have had a lovely day together.

Well, kind sir. My work here is done. I've done all I can do and I hope that you have taken my advice seriously. Best of luck chatting with your girlfriend next time.
